

Tax Time is Around the Corner

But don't stress
We've lowered our tax preparation fees just in time!

H&R Block, Jackson Hewitt, Tax Masters, and other 'pop-in and-out', seasonal, mass-tax preparation service franchises can't beat our prices or full service guarantee!

We're a year-round company, offering unparalleled accounting and bookkeeping services, and we'll stand behind you well beyond tax time.

Not ready? Don't worry!

We can file a business or individual income tax return extension request for you for only \$19.99. With ARTCorp, you have more than 'people,' you have a team of professionals that won't disappear after tax season, and who will help you to organize your books, reconcile your transactions, educate you about your personal or small business finances, and guide you in managing your income from year-to-year to minimize recurring accounting and tax preparation fees, and to diminish the fear that many of us feel around tax time! We can even file your tax return electronically to expedite your refund. Using Intuit's ProSeries accounting and tax preparation software, which is fully automated, secure, and can be seamlessly integrated with QuickBooks, we're a cut above our competitors' 'over the counter' system.

The special offer below (additional Forms available) is for ARTCorp valued clients and business associates only.

Give us a call at 1-866-ART-4048, extension 701, to see if we can further reduce fees based on your unique individual or business circumstances.
